Clear Sleeve™ Floor Protectors

Clear Sleeve™ Floor Protectors

"I'm glad we found Floor Savers®"

"We are a casual dining restaurant with roughly 150 chairs, and that doesn't even include the bar stools. Before we started using Expanded Technologies' Floor Savers, we were working exclusively with tap-in leg covers. Every year we would survey the chairs and end up replacing about 75% of the tap-in protectors due to the potential damage to our floor."

3 Years, NO Replacements!

"When I first called Expanded Technologies they came out here with samples of Clear Sleeve™ Floor Protectors and replacement chair tips that conformed to the bottoms of our chairs. We have several different varieties of chairs, and they had the right size for each of them. The Clear Sleeve™ Floor Protectors are slipover, and I was concerned that they may fall off over time. But the original covers have been on the chairs now for 3 years, and not one has fallen off or needed to be replaced. Not only did the Floor Savers last longer, but they also ended up costing me less than the tap-ins did."

"I'm glad that we found Expanded Technologies because their Floor Savers are the ideal solution to our chair leg problem and have protected our wood floors from any damage. Their product is better than anything I have ever used, and their customer service is excellent."

Each time we changed our old floor protectors, we would split the bottom of the chair leg, so I knew that we needed a new solution before we ruined our chairs.
